

**Art. no. US 2971**

Mobile pneumatic oil dispensing kit, with electronic oil flow meter, for 16 US gal – drums, consisting of:

- Pneumatic double acting 3:1 - oil pump, art. no. US 2030;
- Plastic bung adapter for the fixation of pumps on drums, art. no. US 4340;
- 4 wheels dolly, art. no. 4360;
- 10' – rubber hose 1/2", art. no. 28703;
- Electronic oval gears flow meter for oil, with control gun, rubber protection guard, trigger guard, flexible rubber outlet, Ø 1/2", with curved rigid 90° stem, automatic anti-drip nozzle and inlet swivel 1/2" NPT (M), art. no. US 2631;
- Pressure regulator with manometer and condensation water separator, art. no. 7180.

Optional:

- Air separator kit suitable to separate the air eventually present in the suction line from the oil. With automatic pump stop when drum is empty, art. no. 2051.

**Art. no. US 2991**

Mobile pneumatic oil dispensing kit, with electronic oil flow meter, for 55 US gal – drums, consisting of:

- Pneumatic double acting 3:1 - oil pump, art. no. US 2020;
- Plastic bung adapter for the fixation of pumps on drums, art. no. US 4340;
- 4 wheels dolly, art. no. 4380;
- 10' – rubber hose 1/2", art. no. 28703;
- Electronic oval gears flow meter for oil, with control gun, rubber protection guard, trigger guard, flexible rubber outlet, Ø 1/2", with curved rigid 90° stem, automatic anti-drip nozzle and inlet swivel 1/2" NPT (M), art. no. US 2631;
- Pressure regulator with manometer and condensation water separator, art. no. 7180.

Optional:

- Air separator kit suitable to separate the air eventually present in the suction line from the oil. With automatic pump stop when drum is empty, art. no. 2051.

**Art. no. US 2914**

Mobile pneumatic oil dispensing kit, with electronic oil flow meter, for 55 US gal – drums, consisting of:

- Pneumatic double acting 3:1 - oil pump, art. no. US 2020;
- Plastic bung adapter for the fixation of pumps on drums, art. no. US 4340;
- 4 wheels dolly equipped with bigger wheels for rough surfaces, art. no. 4389;
- 6.5' – rubber connection hose 1/2", art. no. 28702;
- Electronic oval gears flow meter for oil, with control gun, rubber protection guard, trigger guard, flexible rubber outlet, Ø 1/2", with curved rigid 90° stem, automatic anti-drip nozzle and inlet swivel 1/2" NPT (M), art. no. US 2631;
- Open hose reel art. no. 9016, with 50' – rubber hose 1/2", art. no. 28715;
- Pressure regulator with manometer and condensation water separator, art. no. 7180.

Optional:

- Air separator kit suitable to separate the air eventually present in the suction line from the oil. With automatic pump stop when drum is empty, art. no. 2051.

**Art. no. US 2918**

Mobile electric oil dispensing kit, with electronic oil flow meter, for 55 US gal – drums, consisting of:

- Electric, self-priming 110 VAC gear pump, art. no. US 6125;
- Suction tube in galvanized steel, with foot valve and bang adaptor art. no. 2204;
- 4 wheels dolly equipped with bigger wheels for rough surfaces, art. no. 4389;
- 6.5' – rubber connection hose 1/2", art. no. 28702;
- Electronic oval gears flow meter for oil, with control gun, rubber protection guard, trigger guard, flexible rubber outlet, Ø 1/2", with curved rigid 90° stem, automatic anti-drip nozzle and inlet swivel 1/2" NPT (M), art. no. US 2631.

Optional:

- Air separator kit suitable to separate the air eventually present in the suction line from the oil. With automatic pump stop when drum is empty, art. no. 2051.
