

Art. no. **US 4920C**

Art. no. **US 4920C**

Mobile pneumatic grease supply kit for 35 lb - buckets, consisting of:

- Pneumatic grease pump, art. no. US 4020;
- Pressure regulator, art. no. 7200;
- 10' - high pressure hose SAE 100 R2 AT, 1/4", art. no. 4503;
- High pressure grease control gun, 1' steel braid outlet hose and 4 - jaws - hydraulic coupler, art. no. 4205;
- High pressure Z - swivel, art. no. 4221;
- Follower plate, \varnothing 12.2", art. no. 4314;
- Metal drum cover \varnothing 12" - 14", art. no. 4302;
- Dolly with 2 wheels, art. no. 4350.

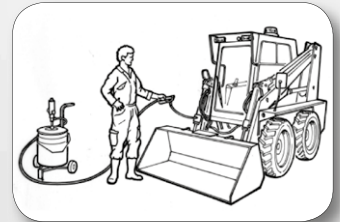

Art. no. **US 4980C**

Art. no. **US 4980C**

Mobile pneumatic grease supply kit for 120 lb - drums, consisting of:

- Pneumatic grease pump, art. no. US 4060;
- Pressure regulator, art. no. 7200;
- 10' - high pressure hose SAE 100 R2 AT, 1/4", art. no. 4503;
- High pressure grease control gun, 1' - steel braid outlet hose and 4 jaws - hydraulic coupler, art. no. 4205 ;
- High pressure Z - swivel, art. no. 4221;
- Follower plate, \varnothing 14.6", art. no. 4317;
- Metal drum cover, \varnothing 13" - 15", art. no. 4305;
- Dolly with 4 wheels, art. no. 4360.

Art. no. **US 4910**

Art. no. **US 4910**

Mobile pneumatic grease supply kit for 400 lb - drums, consisting of:

- Pneumatic grease pump, art. no. US 4080;
- Pressure regulator and air filter with moisture separator, art. no. 7180;
- Open hose reel, art. no. US 9016;
- 50' - high pressure hose SAE 100 R2 AT, 1/4", art. no. 4515;
- 6.5' - connection hose SAE 100 R2 AT, 1/4", art. no. 4502;
- High pressure grease control gun, 1' - steel braid outlet hose and 4 - jaws - hydraulic coupler, art. no. 4205;
- Follower plate, \varnothing 23", art. no. 4319;
- Metal drum cover, \varnothing 24", art. no. 4308;
- Dolly with 4 wheels and mounting bracket for hose reel, art. no. 4380/P.

Art. no. **US 4999/200INP**

Art. no. **US 4999/200INP**

Stationary extrusion unit for grease with bedplate, consisting of a special pump lifting device suitable for pneumatic grease pumps, series "Power Bull", and a grease compacting system that works based on a pneumatic circuit which is activated by a control valve. This unit is used when the grease has a high degree of viscosity or is very dense due to low temperature and therefore is difficult to pump. For the use with grease pump art. nos. 4046 - 4047 - 4048 - 4049 - 4050 - 4051. The kit does not include the pneumatic grease pump. Suitable for the use with 400 lb - drums.
